GET TO KNOW
YOUR STUDENTS
with *ScholarCentric*™

ARE YOUR STUDENTS AT RISK?

Give us 20 minutes and we'll tell you which of your students are most likely to drop out in the next three years.

Nationally, 22% of students assessed using *ScholarCentric* fit the risk profile of students who will become at-risk or dropped out of school. In a longitudinal study, the predictive power of the *ScholarCentric* Academic Risk Index has been shown to identify youth who are likely to become at-risk for future school failure with up to 85% accuracy.

22% STUDENTS

WHAT CHALLENGES ARE YOUR STUDENTS FACING?

The *ScholarCentric* assessment reveals critical factors that have the potential to derail students — even before early warning signs show up.

The attitudes, beliefs, skills, and behaviors that lead to success in school can be taught.

Teaching these skills results in meaningful improvements in GPA, attendance patterns, and persistence in school, and puts more students on track to graduate.

HELLO I'm...not feeling well

HELLO I'm...hungry

HELLO I'm...feeling blue

HELLO I'm...stressed about money

PERCENT OF STUDENT GROWTH
