

I have a question for the membership. We are interested in expanding our independent study and/or project-based learning options for students at the Princeton ALC. We would like to talk with organizations who feel they have a well-developed program in these areas. Would you be able to share our request with the group? Thanks.

Feel free to contact me xxx-xx-xxxxx.

I don't have any answers, but as we head this way, I would also like to know which organizations are strong in this area.

Yes

Erin - please give me a call. Easier to explain by phone what we offer.

Ours (at PYC) is a work in progress. I feel like we have some good English projects, but that we need to develop more options for other subjects, as well as inter-disciplinary options.
